SUMMARY

Front-end web developer with a B.S. in New Media Interactive Development from Rochester Institute of Technology. Experienced developing responsive web applications using React, TypeScript, JavaScript, HTML, and CSS, with hands-on experience in REST API integration and collaborative Git-based development. Focused on building intuitive, user-centered web experiences.

TECHNICAL SKILLS

Languages & Web: JavaScript, TypeScript, HTML, CSS, SQL

Frameworks & Libraries: React, React Router

Development Tools: Git, GitHub, VS Code

Design & Interactive: Figma, Unity, Photoshop, Illustrator

Additional: UI/UX Design, Responsive Design, REST API Integration

EXPERIENCE

Golisano College of Computing, Rochester Institute of Technology | Rochester, NY

Web Developer — Co-op | May 2025 – December 2025

- Developed user-facing features using React and TypeScript for an application focused on connecting developers and designers.
- Troubleshoot and resolved UI/UX issues and application bugs, improving usability, responsiveness, and application stability.
- Contributed code to a shared Git/GitHub codebase while collaborating with developers on feature development and bug fixes.

SELECTED PROJECTS

WeatherRoom

Personal Project | May 2026 – July 2026

React • TypeScript • React Router • REST API

- Designed, developed, and deployed a responsive weather application using React, TypeScript, and React Router.
- Integrated the OpenWeatherMap REST API to retrieve and display real-time weather conditions and future forecasts.
- Implemented city search, an interactive radar, saved locations with local storage, animated weather backgrounds, and light/dark modes.
- Built reusable React components and responsive interfaces, with deployment through GitHub Pages.

Don't Run With Scissors

RIT Capstone Project | September 2025 – May 2026

Unity • Arduino • Interaction Design

- Developed an alternate-controller game integrating Arduino hardware with Unity-based gameplay.
- Helped translate physical gestures, including controller tilting, into interactive gameplay mechanics.
- Collaborated as part of a nine-person development team on gameplay, iteration, and interaction design.
- Selected as an IGF Finalist, alt.ctrl.GDC 2026 at the Game Developers Conference.

EDUCATION

Rochester Institute of Technology | Rochester, NY

Bachelor of Science — New Media Interactive Development | 2026

GPA: 3.80 | **Dean's List:** Fall 2021 – Spring 2026
